Arthem Faerovitch

Pittsburgh, PA • (412) 916-8493 • arthem@faerovitcha.dev • linkedin.com/in/arthem-faerovitch

Education

Duquesne University | **Pittsburgh, PA** **December 2026**

B.S. Computer Science, Minor in Mathematics | **GPA: 3.6**

- **Relevant Courses:** Artificial Intelligence, Machine Learning, Theory Program Languages, Software Engineering, Calculus III, Linear Algebra, Intro Probability & Stat II, Communication for STEM, Public Speaking
- **Honors:** Dean's List

Experience

Maven Machines | **Pittsburgh, PA** **September 2026 – Present**

Customer Support Representative

- Provide **customer-facing technical support** for Maven's **trucking operations platform**, translating operational challenges into clear, actionable solutions.
- Investigate **support tickets**, reproduce reported issues, document findings, and perform **bug triage** to improve prioritization and accelerate resolution.
- Partner **cross-functionally with software engineers** to communicate customer context, coordinate solutions, and deliver a **reliable product experience**.

Owl's Nest Restaurant | **Upper St. Clair, PA** **July 2024 – Present**

Website Development and Maintenance

- Designed and developed a **responsive website** using **HTML and CSS**, delivering a **clean, user-friendly UI/UX** aligned with brand aesthetics.
- Optimized **site layout and styling** to improve **usability and visual consistency**, ensuring a **seamless experience** across devices.
- Translated business requirements into a functional web presence, enhancing **digital visibility**.

Leadership Experience

Computer Science Club | Duquesne University **January 2025 – May 2026**

- Co-founded and served as **Vice President**, leading **organizational strategy, event planning, and member engagement**.
- Organized **club meetings and presentations** to coordinate events and ensure **effective execution**.
- Coordinated participation in **Perforated AI** and **SteelHacks**, managing logistics and competing in **hackathon-style software development challenges**.

Projects

Pokemon Card Classifier | Machine Learning (CS423) **May 2025**

- Engineered a **computer vision pipeline** using **YOLOv8 and Python** to classify Pokémon cards from eBay listing images, including scraping, preprocessing, and labeling a **custom training dataset**.

DuqSchut Tutor Scheduling | Software Engineering (COSC 445W) **May 2025**

- Collaborated on a **25-member Agile team** to build a **full-stack tutor scheduling platform** using **C#, .NET, Blazor, and Azure**, applying **MVC architecture, SOLID principles, and Git-based workflows** to deliver scalable CRUD functionality.

Skills

Languages: Java, C#, Python, C, C++, JavaScript, TypeScript, Russian (Fluent)
Tools: .NET, Blazor, PyTorch, Keras, Node.js, Azure, Git, Linux
Software Engineering: Agile, Scrum, MVC Architecture, SOLID Principles, CRUD Development, Design Patterns
Machine Learning: Object detection, Classification, Data processing, Model training & evaluation
